W. W. Norton, 2006. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: A Family Business prospers through a productive series of brutal consolidations and rational growth. Then the rise of an executive class that pits one egotistical senior manager against another in senseless internal conflicts eventually leads to a long line of demented CEOs, excessive expansion, and foolish diversification-and a high cost in shattered lives. In the end, a series of reverse takeovers leave the once-proud but now overextended and corrupt parent company at the mercy of the mom-and-pop operations that previously cringed at the grandeur of the corporate brand. Enron? WorldCom? Try Rome, whose rise and fall carry a moral that lingers to this day for the managers, employees, and students of any global enterprise. Stanley Bing-whose satirical business books are as savagely funny as they are insightful-mingles business parable and cautionary tale into an ingenious, often hilarious new telling of the story of the Roman Empire.
