By Ian Hutchby

Polity Press. Paperback. Book Condition: new. BRAND NEW, Conversation and Technology: From the Telephone to the Internet, Ian Hutchby, We live in a world where social interaction is increasingly mediated by technological devices. In this book, Ian Hutchby explores the impact these technologies have on our attempts to communicate. Focusing on four examples -- telephones, computerized expert systems at work, speech--based systems dealing with enquiries from the public, and multi--user spaces on the Internet -- Hutchby asks: are we increasingly technologized conversationalists, or is technology increasingly conversationalized? Conversation and Technology draws on recent theory and empirical research in conversation analysis, ethnomethodology and the social construction of technology. In novel contributions to each of these areas, Hutchby argues that the ways in which we interact can be profoundly shaped by technological media, while at the same time we ourselves are shapers of both the cultural and interactional properties of these technologies. The book begins by examining a variety of theoretical perspectives on this issue. Hutchby offers a critical appraisal of recent sociological thinking, which has tended to over--estimate society's influence on technological development. Instead he calls for a new appreciation of the relationship between human communication and technology. Using a...
