Windows Server 2008 Enterprise Administrator: MCITP Self-Paced Training Kit (Exam 70-647) (Mixed media product)

By David R. Miller, John Policelli, Paul A. Mancuso

Microsoft Press,U.S., United States, 2011. Mixed media product. Book Condition: New. 2nd Revised edition. 228 x 188 mm. Language: English . Brand New Book. As an enterprise administrator, you likely are responsible for translating business goals into technology decisions and designs and for developing mid-range and long-term strategies. You are responsible for making key decisions and recommendations about network infrastructure, directory services, identity management, security policies, business continuity, IT administrative structure, best practices, standards, and Service Level Agreements (SLAs). Your job role involves 20 percent operations, 60 percent engineering, and 20 percent support tasks. By using this training kit, you will learn how to do the following: * Plan network and application services * Design core identity and access management components * Design support identity and access management components * Design for business continuity and data availability Work at your own pace through the lessons and lab exercises. Then assess yourself using 200+ practice questions on the CD, which features multiple, customizable testing options to meet your specific needs. Choose timed or untimed testing mode, generate random tests, or focus on discrete objectives. You get detailed explanations for right and wrong answers - including pointers back to the book for...

Reviews

Completely essential go through ebook. It is definitely basic but shocks in the 50 percent from the publication. I am delighted to let you know that this is the best pdf i have go through inside my individual lifestyle and can be he best pdf for possibly.
-- Damien Reynolds I

The publication is great and fantastic. It can be filled with knowledge and wisdom You wont truly feel monotony at at any moment of your time (that's what catalogues are for about if you ask me).
