## Health, Illness and Disability: Psychosocial Approaches (2nd Revised edition)

By E. Ross, Andee Deverell

Van Schaik Publishers. Paperback. Book Condition: new. BRAND NEW, Health, Illness and Disability: Psychosocial Approaches (2nd Revised edition), E. Ross, Andee Deverell, Many of the diseases people suffer from today are chronic and degenerative (e.g. cardiovascular disease, adult-onset diabetes or HIV/AIDS), and bring with them a range of psychological and social issues. Health care practitioners do not cure these diseases, but take care of their patients by helping them understand and live with their conditions. Health, illness and disability: psychosocial approaches addresses the need for health care practitioners to be as skilled in working with and supporting people as in applying the assessment, therapy and/or treatment techniques for which they have been trained. Health, illness and disability emphasises a multidisciplinary team approach. Relevant aspects of the text have been illustrated with examples of indigenous South African situations as well as those of other cultures. Discussion questions, classroom exercises and/or home assignments have been provided to facilitate learning and application of the material covered. Contents include the following: Emotional reactions to a disabling condition or disorder; counselling, family-focused interventions, group work and community work; psychosocial issues in TB, HIV/AIDS, cardiovascular disease and stroke; psychosocial issues in chemical dependency; dying, death and...

### Reviews

*Unquestionably, this is the finest function by any article writer. I have read and that i am confident that i am going to likely to read yet again once again later on. Your daily life period will probably be transform when you comprehensive reading this article book.*

-- Sheldon Aufderhar

*This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Prof. Buford Ziemann
