France, Germany, Spain, Portugal, the Netherlands, Belgium, Luxembourg, Austria, Italia, Ireland, Finland and Greece introduced this currency as the new single currency, while the national currency is still valid and in use, as the Euro is not yet available in coins and notes. Though the exchange rates between the currencies were irrevocably fixed. In less than two months, on January 1st 2002, the Euro will be introduced, and from that day on the Euro notes and coins are in use. Despite of many advantages, that will be explained later in this coursework, a few countries of the EU did not join the European Economic and Monetary Union (EMU) and have not introduced the Euro. Sweden, Denmark and Great Britain refused to take part in the EMU and preferred to sustain their own currencies. This coursework faces the question whether the UK should join the EMU. I will analyse the advantages and the disadvantages of the EMU for UK's economic and business environment. 20 pp. Englisch.
