

## Hints to Meteorological Observers: Prepared Under the Direction of the Council of the Royal Meteorological Society (Classic Reprint)

By Vicar William Marriott

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Hints to Meteorological Observers: Prepared Under the Direction of the Council of the Royal Meteorological Society Meteorological observations to be of scientific value must be made on a uniform plan, otherwise the results will not be mutually comparable. The Royal Meteorological Society insists on such uniformity, and accepts observations from those persons only who comply with its requirements, and whose instruments on inspection are found to be satisfactory as regards both their quality and manner of exposure. The Stations of the Royal Meteorological Society are: (1) Second Order Stations (sometimes called Normal Climatological Stations), at which the observations are taken twice daily, at 9 a. m. and 9 p. m.; (2) Climatological Stations, at which the observations are taken once daily, at 9 a. m.; and (3) Stations at which one or more elements only are observed. When possible, observations are also taken at 3 p. m. at all stations. Instruments. The necessary instruments for a Second Order Station are: - Standard Barometer; Maximum Thermometer; Minimum Thermometer; Dry-bulb Thermometer; Wet-bulb Thermometer; Stevenson Thermometer Screen; and...
